

REFERENCES

The company ROBEX DK, s.r.o. is a long-standing supplier and manufacturer of machines for the processing and refining of textile materials, foam materials and materials of a different nature. Our own development center and design office do not pose any obstacles to us in this regard, and we are therefore able to meet even very complex assignments and fulfill even technologically demanding orders.

We believe that a satisfied customer is the basis of success and a clear proof of quality services. That is why we focus on individual solutions, reliability and trouble-free operation of the technologies we supply. We have encountered various requirements and requests from clients, we always try to accommodate and find the most suitable solution.

Thanks to this, we have the opportunity to cooperate with a large portfolio of customers from the ranks of not only small and large processing companies, but also large multinational companies. We will be happy to pass on our experience to you as well - we will advise, invent and prepare the most suitable solution both from a technical and financial point of view.
